Roe After 40

Radiating into Reproductive Rights, Public Health, Bio Ethics, and more

Roe After 40 is a year-long investigation of Roe v. Wade's impact on the law and the reproductive health of women and men over the last 40 years.

Sponsored by five Philadelphia-area law schools, Roe After 40 considers how Roe has informed, inflamed, and confused the conversation about reproductive rights – far beyond its initial and still vitally important constitutional holding about abortion – involving bioethics, public health, surrogacy and broad perspectives of social justice.

2013

Six-Event SYMPOSIUM

A joint project of five Philadelphia-area law schools

RoeAfter40.org
